Within the Erasmus + project of Strategic Partnership „Project Orientation and Sustainable Governance of Projects“ (PASGOP), on Thursday, April 14th, 2022, starting at 17:00 (GMT+0) – (GMT +2), an event will be held in order to present Project governance and sustainability on the example of Edtech organization by expert in the field Milan Đorđević.

The event is organized by the University of Belgrade and will be held online, through the Zoom platform. Registration for participation in the event can be found at the following [link](#).

Speaker:

Milan Đorđević is the Director of Product Development at Proctorio inc, headquartered in Arizona, the United States. His 15+ years of expertise is in project and product management, organizational development and transformation. He is fostering business innovation, program efficiency and agility through dynamic leadership and vision.

Prior to joining Proctorio, Milan led cutting edge software development projects in Europe and internationally for clients such as BMW, Audi and Samsung. His last role was Head of PMO of a multimillion autonomous vehicle development project. In 2012, 2013 and 2014 his products/projects were selected and granted as one of the best technology innovations by Innovation found of Serbia.

Milan Đorđević is certified Project Management Professional (PMP), Product Owner and Scrum master. He obtained an MBA degree from Grand Canyon University, and Masters in Engineering Management form University of Novi Sad and Bachelor's degree in Organizational Sciences, University of Belgrade.

About company:

Proctorio is a leading EdTech company that provides a fully automated SaaS online proctoring service as a scalable, cost-effective solution to validating student identities and activity during online exams. Proctorio ensures the integrity of distance learning while protecting institutional accreditation and increasing the value of online degrees and certifications.

Proctorio's customizable solution allows professors to set-up unscheduled, on-demand proctoring, specific to their assessment needs. Proctorio levels the playing field for students by increasing accountability, deterring misconduct, and promoting a culture of academic integrity while improving learning outcomes.

Proctorio's goal is to expand quality education by providing high-integrity learning environments to learners across the globe.

In 2021 Proctorio was recognized as one of the fastest growing private companies in the U.S by Inc magazine. And by Forbes in March 2022 as a No1 best startup employer in Arizona and No 110 in the whole United States.
